Dutchess Golf and Country Club

Houghkeensair

New York

Lewis & Valentine Co.,
47 West 34th Street,
New York City.

Dear Sirs:-

May I not take this opportunity to write you, as Chairman of the Construction Committee, Dutchess Golf & Country Club, with reference to the completion of the improvements to our course, and say to you how much the committee are pleased with the work you did, the speed in which it was done, and the thoroughness thereof.

The new greens and fairways are now in use; the turf, although only six months old, is thick and velvety, and guests of the club have had hard work to believe that all this change has taken place in so short a time.

Must also compliment you on the very able representative you placed in charge of the work, and particularly the many valuable suggestions and attention your Construction Engineer, Mr. Jackson, gave us. His weekly inspection and delightful personality was greatly appreciated by the committee.

Most sincerely recommend your firm to any golf committee who contemplate any new or reconstruction work. I know they will receive the same courteous and efficient treatment you have given us.

Very truly,

P. O. Box 229

FOREWORD

IN selecting these few pictures of some of our most recent landscape work we have tried to select those that show each different kind of work that we do—that is, supplying and moving large trees, supplying, arranging and planting all varieties and sizes of specimen nursery-grown trees and shrubs, large Cedar trees, Old Boxwood, the building of roads, tennis courts and golf courses, and any other work connected with the development of the grounds of a country home including giving advice without cost to the owner upon the selection of his property—or any other problem where our large experience in developing country estates would be of value to the owner.

The same careful attention will be given your inquiry whether you are interested in a small purchase of nursery stock or the landscape planting of your entire property.

Dear Sirs:

I was at my place at Far Hills yesterday and made a thorough examination of the work that you have done for me there and I am very pleased with the way that has been done. The large trees you moved for me last Autumn all seem to be thriving and give every indication of having successfully survived the transplanting. The boxwood also looks exceedingly well and I am more than satisfied with the efficient and expert way in which you handled the job.

It is a pleasure to work with people in whom one has absolute confidence as to their honesty as well as efficiency and I wish to thank you for the treatment that I have received at your hands.

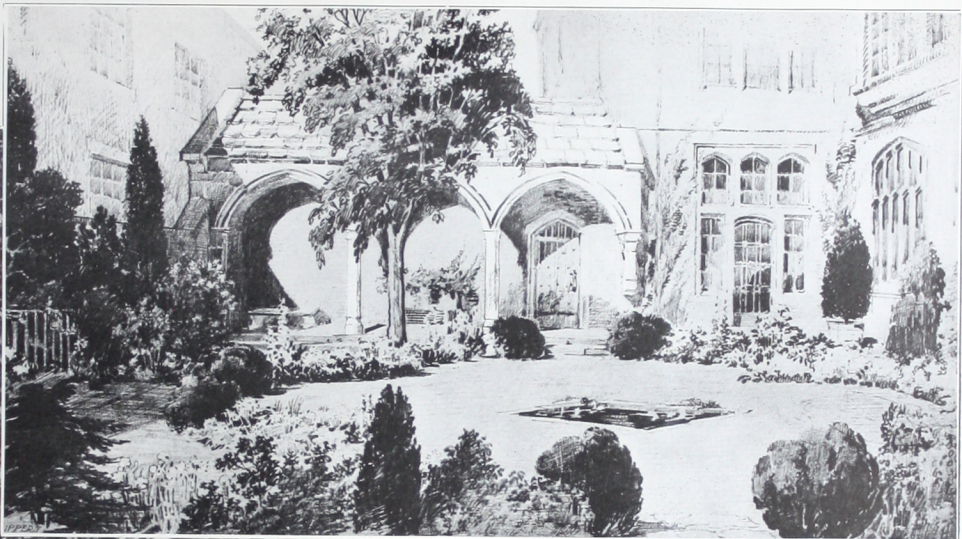

Your very truly,

Horace Kinnicutt

GHK/BS

A planting of tall Cedars, Retinosporas, and Spruce by Lewis & Valentine

Garden of Thomas W. Lamont, Esq., as planted by Lewis & Valentine for Walker & Gillette, Esq., architects. The small sketch shows the proposed planting before the garden was started. If you will send us a picture of your garden or any section you wish planted, we shall cheerfully submit suitable proposals for planting.

The small cut shows a residence before the planting was proposed. The large cut shows an example of a system of photography perfected by us by which we show photographs of the individual trees we propose using, placed in the exact position. This enables the owner to see at a glance the exact landscape effect that is proposed and will be produced before the order is placed or any planting is actually commenced. If you will send us a picture of your house, we will send you a composite photograph as above showing the planting we propose about your own house.

July 6th, 1921.

Dear Mr. Lewis:

I received at my home last night your letter asking permission to refer to me in securing certain important work on which you are estimating.

It gives me very great pleasure to say that during the Fall and Winter of 1920, and this Spring, you have been engaged in moving large trees upon my place (both deciduous and evergreen trees), and that I have been very much pleased with the manner in which you have performed the work. All the trees which you moved last Fall apparently look very well, and I trust that such may continue to be the case.

With best wishes for your success in securing the business which you are seeking, I am,

Very truly yours,

Mr. C. Clifton Lewis,
Ardmore, Pennsylvania.

Gentlemen:-

As the work which you have been doing on the grounds of the Woolworth Estate under our directions, is now complete, we want to thank you for the attention you gave and the care and skill you used in handling this work. The work was principally bringing in large trees and plants (evergreens) for embellishing the mausoleum grounds at Woodlawn Cemetery and we were exceedingly pleased with the way the stock was handled, as well as the interest you took in executing the work according to our plans.

Yours very truly,

BRINLEY & HOLBROOK

*It's a pleasure for Lewis & Valentine
to make suggestions*

New York, December 28, 1920.

To whom it may concern:-

I have been familiar for a long time with the work done by Lewis & Valentine Company and lately they have built a golf course for me at Flushing, Long Island, which has attracted a great deal of attention because work on the course was not started until June 28th of this year and the course was seeded down before the first of October. Everybody connected with this club was delighted with the way in which the work was being done, and I believe that the job has been done more economically and more efficiently than any links job I have ever observed.

I would thoroughly recommend the Lewis & Valentine Co. for such work. They have a number of golf foremen who are experts in the shaping of greens, tees, and bunkers.

(signed) Devereux Emmet.

DE-h

The private golf course of Frank Henderson, Esq., at Roslyn, L. I., as laid out by Devereux Emmet, Esq., golf architect. This company has helped in the building of the golf course for Daniel Guggenheim, Esq., at Port Washington, L. I., the Links Club at Manhasset and the Lido Golf course at Long Beach for Seth Raynor, golf architect. We have also done considerable landscape work for the Sleepy Hollow Country Club, the Nassau Country Club, and have under construction a new golf course for the Flushing Country Club at Flushing, L. I., also for Detroit, Mich., Maplewood, N. J., Rye, N. Y., Poughkeepsie, N. Y., and others. A 3 to 9-hole private golf course can be built on five to ten acres of land, and the cost of construction and maintenance is very little, particularly when constructed at the time of grading the lawns.

New York City.

Gentlemen:

I want to thank you and congratulate you on the splendid work you have done on my place during the present season.

The big trees were moved and planted with less fuss, and with apparently the best facilities, and the finest roots of any trees that have been so handled at Rockledge.

It seems like a miracle to have those trees spring up over night -- with the premises in the same clean condition that they have been before. I cannot see how you do it for the amount of money you charge.

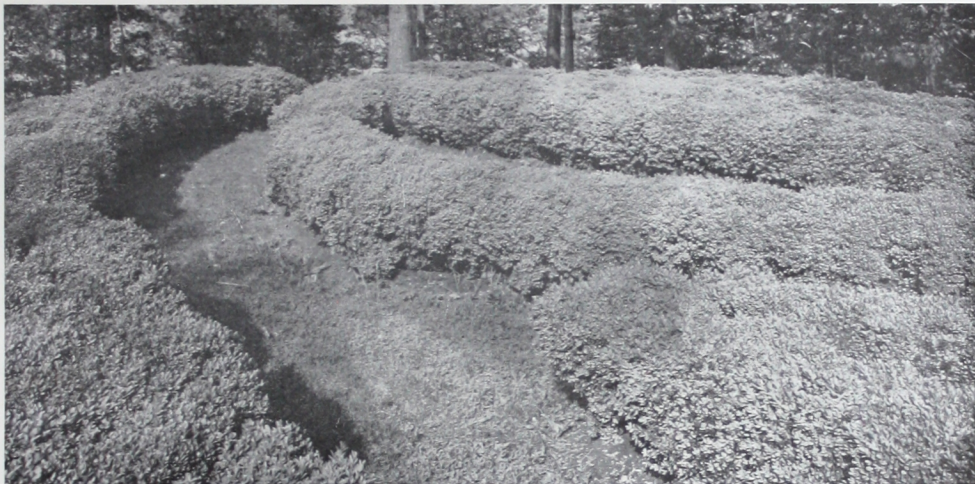

With best wishes, and assuring you of my hearty goodwill in the future,

Sincerely yours,

Walter A. Johnson
Vice-President

Gentlemen:

This is to advise that I am more than pleased with the work you have done on my estate at Rye, N. Y.

The old boxwoods and evergreens around the base of the house were more than satisfactory. Also the transplanting of the full grown trees which was a very difficult task was done in a commendable manner.

Thanking you very kindly for your efforts and consideration and for the high class work done, I am

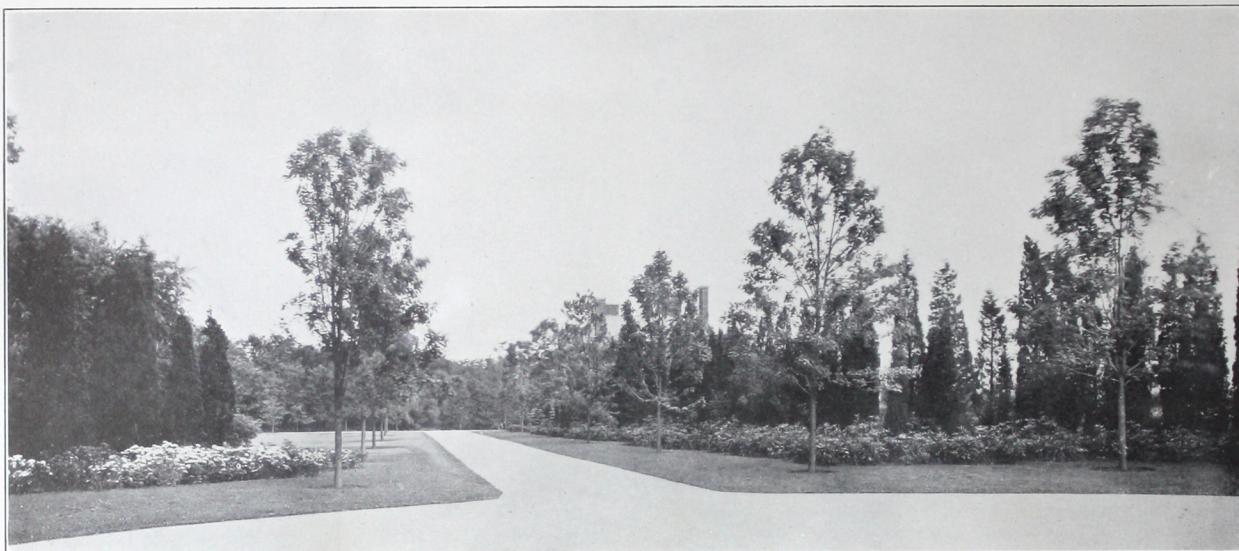

Very truly yours,

RAR:LHM

Gentlemen:

I desire to compliment you upon the manner in which you handled the planting at my residence at Haverford, and also for the interest that you have shown in these plantings after the same have been there nearly a year.

Attention of this kind warrants a man in placing whatever business he might have in your line, feeling assured that you would be not only interested in placing of the business, but the satisfactory growing of the same.

Very truly yours,

Wm Anderson

An artistic arrangement of Cedars and old Boxwood on the estate of Guernsey Curran, Esq., Oyster Bay, L. I. Guy Lowell, Esq., architect. We have 12,000 of these Cedars and about 100 of these large Boxwood plants, of all sizes and shapes, from 50 to 200 years old, ready for immediate delivery

Gentlemen:

I want to compliment you upon the success, and the manner, in which you have done the landscape work and drive building on my place. It has been most satisfactory, and you have obtained a very attractive result.

Another very important part of your work has been that I have always found that the cost of the work has been well within your estimate.

I will always be very glad to commend you to anyone planning this sort of work.

Very truly yours,

Gentlemen:-

Whenever the opportunity has presented itself, I have been only too glad to recommend your firm for landscaping, grading, planting, road building, etc.

All of this type of work which you have done for me has been in every way most satisfactory, and I always feel that when work is undertaken by you it will be properly done and the results will be the best that could possibly be desired.

Very truly yours,

John C. Greenleaf

JOHN McLEOD BOWMAN, President

To Whom it May Concern:

I have been acquainted with the work of the Lewis & Valentine Company for about fifteen years, and more especially with the work they have executed on many of the Long Island estates. The reputation they enjoy for honorable dealing and efficiency is a most enviable one.

They are doing very satisfactory work for the Westchester Biltmore Country Club at Rye, N. Y., at this time.

It is a privilege to me to have an opportunity of recommending them for their good work.

Yours very truly,

AUBREY WEYMOUTH

Mr. Frederick W. Lewis,
Construction Department,
Lewis & Valentine, Inc.,
47 West 34th Street,
New York City.

January 21, 1922.

Dear Mr. Lewis:

In the construction work which you did for the Pomonok Club in Flushing time was the essence of the contract.

We took possession of the site on June 25, 1920 and it was essential that play should begin over the course, as promised, on May 30, 1921. In order to do this, it was necessary to construct the course and seed the same during the period between July 1 and October 1, 1920. This called for a carefully arranged time schedule and the careful carrying out of the same.

I am pleased to state that your Company was able to perform this work satisfactorily for us and the course was open for play on May 28, 1921 and has been in constant use since.

Yours truly,

J. R. MARSH

Gentlemen:-

Your wonderful trees and shrubs, which you have planted for me have turned my Great Neck property into a most attractive place and I take pleasure in expressing herewith my entire satisfaction. You certainly have handled the entire work successfully. It may also be of interest to you to learn, that a great many of my friends have expressed their admiration regarding the planting, particularly since it has been done so successfully within a short period of time.

I can recommend your firm very highly to anyone contemplating planting of any nature.

With best wishes, I beg to remain,

Yours very truly,

Eugene Kienle

Lewis & Valentine Co.,
Marbridge Bldg.,
New York City.

Gentlemen:

It is gratifying to the most of us, notwithstanding our personal efforts to please in serving others, to be told that such were appreciated, consequently, I take this opportunity in expressing to you my satisfaction in the way you have tried and succeeded to please me in the re-arranging the landscaping of Grounds on my estate at Pelham Manor, Westchester County, New York.

The large 60 ft. maples, tall specimen blue spruce, cedars and pines you furnished along with the other evergreens have been a source of great satisfaction to me, as they are admired by everyone who have seen them, and my only regret is, that I did not have you start earlier in the fall on this work, that the balance of the planting as agreed, could be finished before the present severe cold weather set in.

From your enviable reputation in your line of business, and our business dealings, I have no hesitancy in thinking that all of the work you have done for me this Fall, will successfully survive the transplanting because of the care and expert manner your engineer and his crews have so far handled the entire operation. Besides at all times demonstrating their individual personal interest in my behalf; I also state it is an unusual pleasure to do business with a concern in your line, in whom one has every confidence that the job, when completed, will be a finished and satisfactory one in every respect, and I take great pleasure in recommending your services to others.

Very truly yours,

JCW/D
